

HOW TO USE THE NEW HIGH POINT WEBSITE

Our new website is active and running at almost full capacity. This page will take you through some of the most important features of our website makeover, and what you can expect in the near future.

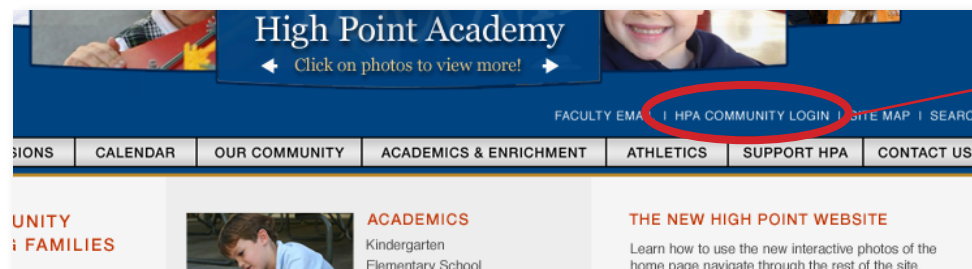

To use this site, we do recommend that you upgrade your Flash Player to the latest version. The upgrade is free and can be downloaded from Adobe's website by clicking [here](#).

THE CAROUSEL. The photo carousel on the home page of the site is a feature of the new look and feel. The carousel displays exciting and interactive photos that will take you through the lives of High Point Academy students and faculty. It's easy to use - to view more photos simply click on one of the smaller images to the left or the right of the center graphic.

PHOTO GALLERIES. Additional pages throughout the site also feature flash photo galleries. These photos can be viewed by clicking a grey arrow at the bottom of the black frame, and scrolling through one by one.

TEACHER PAGES. Parents, students, faculty and staff can now access Teacher Pages by clicking HPA Login. This will take you to a login page, enter the password that you received from the school to access this information.

GIVING. We've made giving to High Point Academy easy! With the new site, you can now pledge your gift by simply clicking on the Giving page. The link will take you to a secure area where you can give a gift in any amount to any of our campaigns with a credit card.

WHAT'S NEXT? Several new and streamlined systems are in queue to be launched in June, including Progress Reports and Class Web Pages, in addition to a new Calendar and Multimedia Photo gallery to name a few.

It is important to us at High Point that parents, students, and teachers are able to easily navigate the new site. Should you have any questions, or would like to give suggestions on how to improve the site, please contact Rick McGregor at RMcgregor@mcgcreative.com
